Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

The amendment received 7/20/07 and the IDS received 7/23/07 have been entered and claims 1-32, 34, 35, 37-43 are considered here.

The rejections of record under obviousness double patenting are hereby withdrawn in view of this application is the most senior of the three applications. In view of the arguments presented, the rejection of record under 35 USC 102(a) is hereby withdrawn. It is particularly noted that the Applicant argues Kurland determines labeled glucose whereas the present claims determine labeled water. However there is inconsistency regarding this issue in the claims.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-32, 34, 35, 37-43 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Each of the following applies in all occurrences.

There are many instances of lack of antecedent basis in the claims, in claim 1 line 1 "the metabolism, in claim 1(c) "the incorporation". In all occurrences "chosen from" is improper Markush terminology. In claim 1 nonstandard language is unclear where detecting is improper if something is determined and no correlating step is seen. In claim 1 labeled water is detected that has been produced from sugars or fatty acids administered. In claim 13 the labeled substance is incorporated into sugars, fatty acids, proteins or DNA and measured. This is inconsistent and fails to further limit claim 1.

Art Unit: 1657

The claims must be clear regarding what is administered, what is determined and what is correlated. In claim 34 "said metabolism determination" lacks antecedent basis.

The title of the invention is not descriptive. A new title is required that is clearly indicative of the invention to which the claims are directed.
